## **COPY OF A FACEBOOK POST FROM:- RCVS Knowledge (9<sup>TH</sup> June 2021)**

We are excited to announce that our #CanineCruciateRegistry will be launched on Wednesday 28 July 2021!

The Canine Cruciate Registry is the first of its kind in veterinary medicine. Through gathering data on cruciate surgery techniques and implants, we will be able to evaluate which techniques lead to improved patient outcomes.

Please join us at our launch event where we will introduce the registry and demonstrate how it can be used to evaluate outcomes and complications in cruciate surgery, drawing from the wealth of experience in human registries.

Sign up for the free event here: [bit.ly/2TSxyWy](https://bit.ly/2TSxyWy)
